For Immediate Release

LIFE & FIRE SAFETY VIRTUAL CLASSROOMS Interactive, Hands-on Learning for Kids in Three Languages

ST. LUCIE COUNTY, FL Typically, this time of year the St. Lucie County Fire District's (SLCFD) Life & Fire Safety Educator, Stacey Carter, has already made several classroom visits and scheduled numerous fire station tours; however, this year, the pandemic has pushed her into a different direction.

Just in time for Fire Prevention Month, the SLCFD Community Risk Reduction division released interactive, virtual classrooms that focus on fire prevention and life safety education. The interactive classrooms feature e-books, videos and flyers in three languages; English, Spanish and Creole. The links have been available since Oct. 1st at www.slcfd.com.

For more information on the programs and services offered through the St. Lucie County Fire District, please visit our website at slcfd.com and look under the "Our Community."

"Covid-19 pandemic has forced us to reinvent how we provide fire & life safety education to our community. With the creation of the virtual classrooms, Stacey found a way to meet this challenge and because of her creativity, SLCFD's fire and life safety education resources are more accessible than ever before." –Deputy Chief Jen Chambers
